

On 16th March 2020, the Government of Malaysia has announced the 14-day Movement Control Order to be implemented nationwide from 18th to 31st March 2020 to curb the spread of the Covid-19 infection in Malaysia.

All public and private premises will be closed except for Essential Services.

Following from that directive, our office will be closed during the said period.

However, all our partners and lawyers will continue to work from home and shall be reachable via e-mails or text messages.

You may also contact us on our personal mobile numbers should any urgent issues arise which may require immediate attention.

Whilst we continue to provide our services during this unprecedented period, there will inevitably be some constraints to meet certain deadlines.

We hope that everyone will keep safe, calm and healthy during this period. We look forward to resuming our services in due course.
