ABOUT

As a legal professional with a career spanning over a decade, Iman's proficiency lies in the intricate domains of projects, infrastructure, and energy, where he has consistently delivered comprehensive legal counsel to clients.

With a strong track record in advising on corporate and commercial matters, acquisitions, restructuring, project development, construction, licensing, and regulatory compliance, amongst others, Iman is renowned for his ability to navigate complex legal landscapes.

NOTABLE TRANSACTIONS

- Advising an American multinational automotive and clean energy company and the manufacturer of electric vehicles for the distribution and sale of its vehicles in Malaysia.
- Acting for Peninsular Malaysia's largest concessionaire for federal road maintenance in the drafting of and negotiations for a federal road maintenance concession to be carried out under performance-based contracting.
- Advising a consortium member on its proposed participation as a solar power producer in the Corporate Green Power Programme.
- Acting for an independent power producer in a bid submission for a concession to construct and operate a waste-to-energy treatment plant under a public-private partnership model and negotiating with the client's engineering, procurement and construction contractor.
- Assisting in acting for a sovereign wealth fund in the corporate restructuring of the assets of its subsidiary with a cumulative transaction value of approximately RM2.5 billion.
